Ricordi's scores are beautiful to me, and very basic looking, plain beige and another color. I bought Nabucco, the critical edition on .com about 10 years ago, and sold it for 19.99 in the marketplace. I have to say that the prices vary very much, certainly up to 100.00 for certain scores and much more for French scores. Porgy and Bess can cost up to 120.00. But, this one was very competitively priced direct from the marketplace. It has a comprehensive notation for performing this opera, so I think it's worth it. I certainly wish I hadn't sold the Nabucco, after looking more thoroughly at the notes in Poliuto (in Italian and English) on here. Of course, looking at a bel canto opera with the intention of understanding how it is performed is not that easy. I play piano for practical purposes, but I am not a pianist and if I were it wouldn't matter because the book didn't stay open, and no amount of creases in the spine kept it on the piano. Fortunately, one of the things I enjoy is musical analysis, which I had plenty of in college. That's also what makes Ricordi worth it to me; the ease of reading it for my vision type, and comprehension level, which may put some people to sleep. I like the wide spacing of the notes in the score. As for Donizetti, when one sight sings or plays a phrase on the piano, you only have a phrase. If you play an aria or otherwise from Trovatore, for example, a very identifiable rhythmic pattern emerges almost immediately, but that's not Donizetti in Poliuto. But

the music is surprisingly dramatic and effective, and a bit necessarily pale.
