Customer Reviews

Well written in Spanish translation. Subject is origin of human beings began as directed evolution by aliens to serve as slave labor for their mining of gold. Complications occur in the aliens' plans as they find themselves entangled in sexual contact with humans and hybridization produces unexpected mixtures, that the aliens identify as their own children. Uses numerous clay tablets from Sumerian and other Middle East region and sculptures and oral tales of ancient civilizations to verify his conclusions. Fascinating, challenging and very thought provoking. Highly recommended for this genre.
