This study guide includes 230 multiple-choice and short-answer questions arranged topically for ease of use during the semester, plus an additional set of 20 questions comprising a comprehensive ""practice exam." For each multiple-choice question, Professor Rowley provides a detailed answer that indicates which of four options is the best answer and explains thoroughly why that option is better than the other three options. For what it's worth I got an A in contracts. My course was all about black letter law. You will need this book, E&E Contracts, Crunchtime Contracts, access to CALI lessons, and access to Multi-State Bar multiple choice questions. Throughout the week teach yourself the material and outline using the E&E and the Crunchtime. On the weekend use the Cali Lessons and Multi-State Bar questions to drill the rules into your head. Save this book, the Lexis Q&A, for last. All the other supplements are good, but have occasional inaccuracies and occasional poor explanations. The Q&A is perfectly accurate and well structured, but it is like a piece of chocolate cake that is too rich: you have to work your way through slowly, with plenty of coffee breaks. Don't use this to teach yourself, use it to hone your knowledge. Some of these questions are damn hard, harder than anything a prof. will give you on a final, which makes it an excellent supplement weekly (after you've studied everything else) and again at the end of the semester (when you are reviewing).

This is a must have supplement. It really helps to make sure you have your law right. I received a very high grade in my contracts class. In preparing for class I read the assigned readings, then read the corresponding section in Acing Contracts (West Law Study Aid) and read the corresponding section in Gilbert's Outline (West Law Study Aid). I would then do the section in this book, I got the kindle version which is great because I could delete all the highlights and went through the questions again right before finals. It worked well!!! I would get the questions and answers book for each class and subscribe to the West Law Study Aid subscription (worth every penny!).

Only use this book if you know that your prof is going to have MC on the exam. This book will not be nearly as helpful if the exam is going to be all/mainly essays. For essay practice, get the E&E.

Great book to help me understand completely helpful for my classes and for the test. Very pleased with it. )

Practice questions are the only way to go for studying for exams. Q&A gives a great range of practice and prep.

The questions in this book use the same convoluted names for characters in the scenarios that completely mess up the flow of reading. I found this book to be a waste of money.
